

FF FLINT'S FINE FURNITURE

THINGS MAHOGANY.

The first mahogany log sent to England in the eighteenth century was made from a tree in the County of Buckinghamshire. At once there was a great demand for mahogany furniture because of its superb coloring.

Ever since the demand has been increasing, and no wonder; such a richly colored wood gains depth of tone and acquires the warmest hues. It supplies the shadow in the pictorial effect of the room, and relieves the shadow with light from the inner fires of its dark depths. We have reproduced not only antique designs, but the true color of age, showing the most beautiful graining, so now it will last for centuries and increase in value.

The Thanksgiving festivities will be incomplete without an artistic mahogany piece, which you can now secure at factory prices, if you

Grand Rapids Furniture

There is a positive claim in the treatment of a room on Chippendale lines. The absolute simplicity of these designs in Bureaux, Twin Beds and Toilet Dresses, show their refining influence in every line. The wood used in these conceptions is mostly in the beautifully toned San Domingo mahogany.
